LATEX PAINT DISPOSAL

Dry it up. Throw it out.
Water-base paint is not hazardous and should be disposed of in the trash.

Latex paint is not accepted in the Household Hazardous Waste Disposal Program. It can be cleaned up with water and is not flammable.

CUYAHOGA COUNTY
Solid Waste Management District

To solidify latex paint

- Air dry
- Use a drying agent: cat litter, sawdust, plaster of Paris, Oil-Dri or “waste paint hardeners” found at home improvement centers
- When the paint is dry, discard it with your regular trash. Leave the lid off so the waste collector can see the paint is hardened
